Art Unit: 2652

Claims 1, 4-5, 7, 9-14, 17-18, 20, 22-27, 30-31, 33, 35-39 are now pending.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance. The prior art made of record considered as a whole neither shows, nor renders obvious the overall combination of a slider/head stack assembly/disk drive configuration in which the slider includes a transducer and an air bearing surface (ABS) such that the ABS is selectively etched to form a leading air bearing region and at least one insular reduce for reducing stiction with the disk, wherein the air bearing region and the at least one insular region being substantially co-planar so as to define a single radius of curvature. It is noted that the "single radius of curvature" as defined in the claims must be defined on a top surface of the air bearing region and the at least one insular region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
